# Prendio for Life Science

## An eProcurement solution designed with your team in mind

### BUILT FOR EFFICIENCY

Prendio is a simple, streamlined, and affordable procure-to-pay software solution designed to improve efficiency and decrease administrative burden for life science organizations, accelerating research and reducing development cycle time. We keep things simple and easy to use, so that your research team can spend their energy and brainpower on the things that really matter. And because we have the fastest implementation time in the industry, with Prendio you can really hit the ground running.

### MAINTAINING CONTROLS, SIMPLIFIED

Set user privileges and visibility by role and customize approval paths and limits. A clean, complete audit trail is built automatically, and because everything is stored securely in the cloud, your documentation is available to you whenever—and wherever—you need it.

### INTEGRATES SEAMLESSLY WITH YOUR ERP

Paying vendors has never been easier or more accurate. We currently integrate with the following ERP systems and offer custom integrations as needed:

- NetSuite
- Oracle Fusion
- Microsoft Dynamics Business Connector
- Sage Intacct
- Quickbooks Online
- Quickbooks Desktop

### DON'T TAKE OUR WORD FOR IT

From the busy scientist to the high-level finance professional, our users are speaking out about how easy it is to achieve more with Prendio!

“Our labs have been using Prendio for years. The system is easy to use and navigate. Our scientists can enter requisitions and use punchout capabilities while we still maintain an approval workflow. This makes the integration to our ERP system seamless.”

**Sonia Melo**

Senior Manager of A/P, Flagship Pioneering

“As an R&D Scientist, Prendio makes ordering lab supplies simple and fast. The Prendio website is a one-stop shopping cart where I can make all my purchases, and punchout orders are even faster and more seamless than ever.”

**Steve deCamp**

Scientist II, Generate Biomedicines
